PROFILE

Full-Stack Developer with **1+ years of hands-on experience** in building responsive, scalable, and user-friendly web applications. Skilled in JavaScript (ES6+), **Typescript**, **React.js**, **Redux**, **Node.js**, **Express.js**, **MongoDB**, **Sql** and REST API integration**,** with exposure to Agile/Scrum workflows, and Git version control. Experienced with Agile workflows, CI/CD, Docker, and responsive UI design. Passionate about creating innovative solutions, contributing to open-source, and rapidly prototyping features that deliver real-world impact.

EDUCATION

Mepco Schlenk Engineering College 2020 - 2024
B.Tech. Information Technology
GPA – 8.68

Thiagarajar Model Higher Secondary School 2019 - 2020
HSC
Percentage – 86.83

Thiagarajar Model Higher Secondary School 2017 - 2018
SSLC
Percentage – 95.8

TECHNICALSKILLS

Frontend: React, TypeScript, Next.js, HTML5, CSS3, JavaScript, REST APIs, API Development

UI Libraries & styling: Tailwind CSS, Framer Motion

State Management: Context API, Redux

Backend: Node.js, Express.js, MongoDB, SQL, JWT, Microservices, NoSql

Programming Languages: Javascript, Typescript, Python

Cloud & Tools: AWS, Docker, Git, GitHub, npm, CI/CD, LLM API, Unit Testing, Jest, Vitest

Core Competencies: Agile/Scrum, OOP, SaaS Applications, Problem-Solving, Debugging, Collaboration

PROJECTS

WhisperWalls - A Social Whispering Platform (Thrizll Hackathon)

- Built a SaaS-like social platform for anonymous user posts filtered by mood and category.
- Developed features like category-based filtering, personalized charts, discovery tool, and private whisper walls.
- Tech Stack: **React**, **Zustand**, Framer Motion, Tailwind CSS, Node.js, **Express**, **MongoDB**, JWT.

TidyMind - AI-powered mood planner (Fusion-2 Hacks Hackathon)

- Designed an **AI-driven productivity tool** adapting to user mood and focus using **Google Gemini AI**, setting a new standard in software development.
- Implemented **task management, checklists, local storage, and image export** features..
- Tech Stack: **React, Tailwind CSS,** Anime.js (frontend), integrated **AI APIs**.

TaskTracker - AI-powered Task Extractor from Transcript

- Developed an AI-powered application that converts unstructured **meeting transcripts** into structured **task data** using Google Gemini AI.
- Built a full-stack system with **task review**, **editing**, **filtering**, and **transcript history** management to streamline post-meeting workflows.

- Implemented bulk task creation, **status tracking**, **sorting**, and responsive UI with clean state management.
- Tech Stack: **React**, **TypeScript**, Tailwind CSS (frontend), **Node.js**, **Express**, **MongoDB** (backend), Google **Gemini API**, Vercel deployment.

Datrix - A Modern responsive dashboard template

- Developed a **modern, responsive dashboard template** using **React.js and Tailwind CSS**, optimized for scalability and customization.
- Built a **collapsible sidebar navigation** with multiple sections, ensuring intuitive user experience.
- Integrated **dark mode toggle** and responsive layouts, enhancing accessibility across desktop, tablet, and mobile devices.
- Implemented **interactive chart components** for data visualization, making it adaptable for admin dashboards and analytics platforms.

CERTIFICATIONS

Master-Class Certificate in Full Stack Development - NoviTech R&D Private Limited (2024)

Student Leader Internship Certificate – PALS (2023)

Data Structure and Algorithms Using Java — NPTEL (2022)
