PROFILE

A motivated full-stack developer with a solid foundation in JavaScript, Node.js, React, Express.js, GIT, SQL and MongoDB. Passionate about building responsive and scalable web applications. I am quick to learn new technologies and committed to continuous growth. Eager to contribute to innovative projects and collaborate with dynamic teams.

EDUCATION

Mepco Schlenk Engineering College <i>B.Tech. Information Technology</i> GPA – 8.68	2020 - 2024
Thiagarajar Model Higher Secondary School <i>HSC</i> Percentage – 86.83	2019 - 2020
Thiagarajar Model Higher Secondary School <i>SSLC</i> Percentage – 95.8	2017 - 2018

TECHNICALSKILLS

Frontend: React, Tailwind, GIT, Data Structures, RESTful Api, Redux, HTML5, CSS3, ReactJS

Backend: Node, Express, MongoDB, MySQL, Django, Web Tokens

Programming Languages: Javascript, Python, Java

Tools: Github, Docker

Skills: Collaboration, Front-end, Back-end, CI/CD, Problem-solving, OOPS, Database, Communication, Debugging, UI

Skills: Continuous Integration, Scalable Application, Agile, UI/UX, Security, Troubleshooting, Version control

Skills: AI, Cloud, Code Optimization, NOSQL, Leadership, Teamwork, Decision making, Scrum

PROJECTS

FoodieHub - A User-Centric Online Food Ordering System

- Developed a full stack application using the **MERN stack** (React, NodeJs, Mongo, ExpressJs). It allows users to create accounts, log in, and explore a menu of food items. Users can view various food varieties, place orders, and update their profiles.

Datrix - A Modern responsive dashboard template

- Developed a responsive dashboard template using **ReactJs**, Tailwind. The dashboard includes a sliding navigation bar with different sections, a dark mode toggle, responsive design, and several chart components. It is designed to be a starting point for building customizable admin dashboards and other web applications.

TidyMind - AI-powered mood planner (Fusion-2 Hacks Hackathon)

- A Developed TidyMind, an **AI-powered** daily planner that adapts to user mood and focus using Google Gemini AI. Built interactive features like task editing, checklist tracking, local storage, and image export. Designed a responsive, animated UI with **React**, **Tailwind CSS**, and **Anime.js**, deployed on Vercel.

CERTIFICATIONS

MasterClass Certificate in Full Stack Development - NoviTech R&D Private Limited (2024)

Student Leader Internship Certificate – PALS (2023)

Data Structure And Algorithms Using Java — NPTEL (2022)
